PROFESSIONAL PROFILE

Developer with expertise in React, JavaScript, HTML, and CSS, focused on building responsive and user-centric web applications. Skilled in modern UI frameworks like SASS, Bootstrap, and Material UI to deliver clean and scalable designs. Experienced in API integration and third-party services, with working knowledge of Node.js, MongoDB, and PostgreSQL. Familiar with deploying applications on AWS and Render. Committed to clean code, continuous learning, and delivering high-quality user experiences.

EDUCATION

MS Ramaiah Institute of Technology

Bachelor of Engineering in Electronics & Telecommunication
2020-2023

RNS Polytechnic

Diploma in Electronics & Communication
2017-2020

ACTIVITIES

Team Lead

at Pradarshana MSRIT

Volunteer

at IETE-Institute of Electronics and Telecommunications Engineers

HOBBIES

DIY Electronics

where I design and build small-scale circuits and smart devices using microcontrollers like Arduino and Raspberry Pi-often combining sensors displays, and solar power for creative problem-solving.

Frontend Development

regularly experimenting with new UI/UX trends, animation libraries, and design systems to build visually appealing and responsive web interfaces beyond professional requirements.

SKILLS

Frontend: HTML5, CSS3, SCSS, JavaScript (ES6+), React, Bootstrap

Backend & Build Tools: Node.js, ppm, Vite, ESLint

Version Control & Deployment: GitHub, AWS, Render

Databases: PostgreSQL, MongoDB

Third-party integrations: Firebase, YouTube API, RazorPay

Highlights:

- Strong frontend development with React and responsive UI design
- Experience in full-stack workflow (frontend + backend + database)
- Integration of third-party services (payments, media, auth)
- Deployment and cloud handling (AWS + hosting platforms)
- Clean coding practices and efficient development workflow
- Focus on performance, scalability, and user experience

PROJECTS

AGRAZ- Freelancer (From 1+ years)

- Working on ERP and CRM modules, focusing on user management, data handling, and workflow optimization.
- implement frontend features and integrations for ERP/CRM systems, ensuring responsive UI, usability, and efficient data flow.

MIVENT-Event Manager

- Built a full-stack event management platform enabling users to manage events, team members, services, quotations, and billing with role-based access.
- Integrated features like secure authentication, and Razorpay payment gateway for annual subscription-based access.

BAKULA - Ecommerce Site

- A responsive web application for BAKULA, featuring intuitive UI and seamless cross-device performance.
- Implemented interactive components and streamlined layout to enhance user engagement and navigation.
